Below are the documents for the briefing to Bob Kavlock next week on PFAS. These versions incorporate comments received from the stakeholder call we held last December.

I will be dialing in from Athens for this discussion. For the briefing I suggest the same agenda and approach we used for that stakeholder meeting:

- I can kick off the discussion, introduce the players and say a bit about how we got here
- Andy can walk through his slides on the study plan
- I can address the communication strategy

Then see if Bob has any questions or concerns, and ask for the final green light.

I assume NJ will want to be in the field in the spring, which given current weather patterns may be sooner rather than later, so I am hoping this briefing results in the final approval and we can move ahead.

I did note that PFAS is one of the 'hot topics' noted in Bob Kavlock's all-hands email today re: discussions with the transition team...

Thanks, Andy

Andrew J. R. Gillespie, Ph. D.
Interim Director, EPA/ORD/NERL/CED
Associate Director, EPA/ORD/NERL

Subject: RE: Proposed collaborative study of PFAS presence in Southwestern NJ

Hello Nathan, please add these three documents to the calendar invite for this meeting (Feb 14, 2:00 pm):

- The briefing slides
- The study plan
- The communication plan

Please let me know if any questions.

Thanks, Andy
